WELCOME!

THE PSYCHOLOGY OF GOOGLE

WIRED MUSTANG INC.
Increase Your Online Horsepower®

In our current culture, Google has transformed from a noun into a verb.

Think about it. We don't say "search for it" — instead, we say "google it."

This is a direct result of people finding incredibly useful information by using Google's search engine. If you think this is an accident or coincidence, then think again. You see, Google has developed a mutually-beneficial system between their company and other businesses in the world.

Here's why: if Google understands your business, then they can provide accurate information to their users about your business. If Google can provide accurate information to their users, then the users will continue relying on Google. If a lot of people continue using Google, then Google can make money from ads and paid services. It all comes down to creating a great experience for Google users.

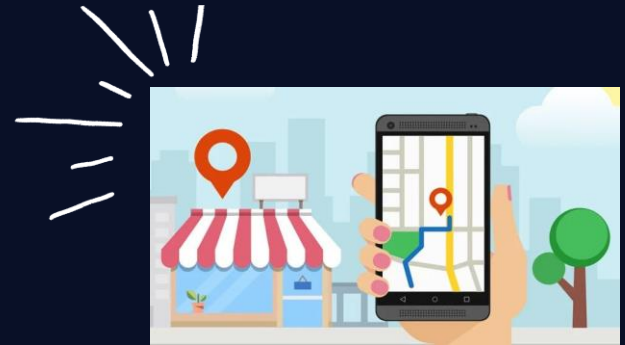

MODERN VERSION OF YELLOWPAGES

WIRED MUSTANG INC.

In order to store and show accurate information about other businesses, Google has developed a tool called Google Business Profile. Basically, this is our modern Version of Yellow Pages!

And if you follow the simple steps below to upload your business' information to Business Profile, Google will give you the equivalent of a FREE, full page, full color ad.

SO, WHAT'S THE HOLD UP?

WIRED MUSTANG INC.

Your competitors are probably already taking advantage of Business Profile.

And if they aren't, *then they will be soon.*

If you have any doubts, then think about your own experience researching new companies online. You're probably more likely to purchase from the ones with a well-established web presence, right?

They look more professional and modern, and this immediately instills a feeling of consumer trust.

By considering your business' appearance on Google, you can easily establish an edge over your competitors.

You will have the option to either claim or create your business' listing. If your business pops up when you enter your business' name, then select it and claim it.

If you search for your business but don't find any results, then you will need to create a new listing.

NEXT: VERIFICATION

WIRED MUSTANG INC.
Increase Your Online Horsepower®

This is the process by which Google ensures that you are the owner of your business. For most businesses, verification is done by mail. However, in some cases, you will have the option to verify by phone, email, search console or video.

Check with Google about the different verification options, and see which methods you qualify for.

Be aware that verification can take up to two weeks — so don't delay if you want all the perks of managing your business listing on Google!

To verify your listing, update your
business info

Your business info currently has errors. To be able to verify your listing, take a few minutes to correct it.

STEP 2

CHOOSE A CATEGORY
FOR YOUR BUSINESS

GUIDE TO CHOOSING CATEGORIES

WIRED MUSTANG INC.
Increase Your Online Horsepower®

After you've passed Google's verification check, you will be prompted to select categories for your business.

You can choose one primary category, and up to nine secondary categories.

This may seem like a straightforward task, but really take your time choosing the best categories to describe what you do!

After all, as of 2020, there are 3942 categories for you to choose from.

TIPS!

WIRED MUSTANG INC.

Tips for Primary Category ("Services")

The primary category for your business is given top priority in Google's algorithm. This is the main deciding factor in whether or not your business will pop up during a user search.

Plus, isn't it refreshing when you search for something specific and Google provides exactly what you need?

Tips for Primary Category ("Services")

Be as specific as possible when selecting your primary category.

The more specific you are, the fewer businesses you'll be competing against.

TIPS FOR SECONDARY CATEGORIES “SERVICES”

WIRED MUSTANG INC.

As another rule of thumb, try to select as few secondary categories as possible when describing your business. This may seem counterintuitive, but it actually increases the likelihood of users finding you.

You see, if you only use 3 categories to describe what you do, then Google will be dividing its user- directing resources into only 3 channels.

On the other hand, if Google has to re-route users to your business based on 10 different categories, then this weakens the effectiveness of its algorithm.

STEP 3

WIRED MUSTANG INC.

ADD IMAGES OF
YOUR BUSINESS

THIRD TIP IS TO ADD IMAGES OF YOUR BIZ!

WIRED MUSTANG INC.
Increase Your Online Horsepower®

Have you ever googled a business, and the only photo result is a vague snapshot from the Google Earth street view camera? Talk about off-putting, right? You definitely don't want that to be a client's first impression of your business.

The images you upload should give potential customers a mini-tour of your company. This can be a physical tour, where you showcase the outside and inside of your building, or it can be more of a conceptual tour, where you try to communicate the feel and mission of your company. If you opt for the latter, then you may choose to upload photos of your staff, or photos of the products/services that your business offers.

Place yourself in the shoes of your clients, and imagine what you would like to see before deciding to hire or buy from your company.

ALSO....

WIRED MUSTANG INC.
Increase Your Online Horsepower®

Also, don't **just** upload any old photos you have on hand of **your business**.

These images should be high-resolution, and professional quality. They should also reflect your business in its current form. If you've redone the interior of your office, or if you've made a lot of new hires, then make sure the photos show your current setup.

If you don't feel confident taking photos yourself, then you can even hire a local photographer to do this for you. Or, you can ask a creative member of your staff to take the photos.

STEP 4

ADD ADDRESS,
PHONE NUMBER
& BASIC INFO

AND NEXT

Local Number = The Best!

Here's another tip: when adding a phone number to your business, make sure it's local. Potential customers may be confused if they think that you're a local company, but then find an unfamiliar area code when reaching for the phone. They might assume that your business location is inaccurate, and they might even choose to do business elsewhere

Consistent Contact Info!

Next, you can add your address and phone number to your Business Profile listing so that potential customers can easily reach you. If your address and phone number are published in multiple places on the web (like on Facebook, Instagram, and your company site), then make sure that this contact info is the same across all of these locations.

After all, you want to make certain that the people who want to buy from you can actually find you.

Your Website and Appointment Links!

A properly implemented link to your Business Profile and your own online property is important.

You can provide your main website link, specific appointment links and important industry specific details that help customers get to you.

STEP 5

KEEP TABS ON
YOUR REVIEWS!

WHAT DOES YOUR REVIEWS SAY ABOUT YOU?

WIRED MUSTANG INC.
Increase Your Online Horsepower®

When you're about to hire or buy from a business, what do you look at to make your decision?

The reviews, of course! So, now that you've uploaded all of your business information into your Business Profile listing, it's time to consider your reviews.

MORE ABOUT REVIEWS

WIRED MUSTANG INC.
Increase Your Online Horsepower®

You want to get as many positive client reviews as possible, to convince other potential clients that you are the #1 option for the service/product they need. For this process, don't worry about getting reviews specifically through Google - the search engine often scans the web and integrates reviews from other websites into your Business Profile. Just focus on the volume of reviews, not where they're from.

You can get reviews by reaching out to clients after they've received their product/you've completed the service, or you can offer incentives for clients who leave feedback.

ALSO REMEMBER

WIRED MUSTANG INC.

Reply to clients who post positive reviews!

This customer engagement leaves a good impression.

Plus, other Google users will see that you care about providing a good experience to your customers.

STEP 6

ADD OFFERS
TO YOUR LISTING!

POST SPECIAL OFFERS

WIRED MUSTANG INC.
Increase Your Online Horsepower®

If you look at your Business Profile, you will see that you also have the option to add posts to your listing. One of these post options is “offers.”

With this option, you can let Google users know about special deals and discounts that they can receive through your business.

What's more, you can program these offers with special Call-to-Action (CTA) buttons, directing Google users to your website or order page.

Keep your customers updated by sharing an offer

Reach beyond just your followers - give everyone searching for your business a reason to come in by posting updates and offers directly to your local listing on Google

You have the following options for CTA buttons:

**Book online, Ask online, Buy, More information, Register,
and Call now**

The screenshot shows a 'Create post' modal window. At the top, there are navigation options: '< D-19 update', 'Offer', 'What's New' (selected), and 'Event'. Below this is a large dashed blue box containing a camera icon and the text 'Add photos or videos'. To the right of this box is a character count '0 / 10'. Below the photo area is a text input field with an information icon on the right. A dropdown menu is open over the text input field, listing the following CTA options: 'None', 'Book', 'Order online', 'Buy', 'Learn more', 'Sign up', and 'Call now'. At the bottom of the modal, there are 'Preview' and 'Publish' buttons.

TRACKING YOUR OFFERS – ATTENTION GRABBERS!

Offers are a great way to grab Google users' attention.

Plus, in your Business Profile, you have the option to track users' engagement with your offer.

1

Now that you have a solid Business Profile, the work isn't over. You need to stay on top of your business' listing by adding frequent posts to your listing.

2

These posts can be updates, events, offers, or new products. Each time you create a post, you have the option to add photos, videos, and CTA buttons to attract client attention, and to foster engagement.

3

Think of this as the option to add additional advertising to your listing.

PLUS...

Plus, frequently posting on your Business Profile increases the likelihood that your business will appear in user search results.

By having an active profile, there is more information linked to your business on the web, and therefore more material that may match your clients' search terms.
